

My staff and I welcome you to our dental practice.

We appreciate the opportunity to provide you with what we feel is some of the finest dental health care available today. We take great pride in keeping up to date with the newest dental techniques and materials. This allows us to truly deliver "state of the art" care. As you will see, our office facility also reflects this philosophy.

Your initial visit will mostly likely consist of:

- A review of your medical / dental history.
- Various radiographs (x-rays) if these are unavailable from previous dentist.
- A thorough oral examination.
- VELscope oral cancer screening for adults.

The information gathered through this process will be used to tailor future appointments to your specific needs. If you have dental insurance, please bring an insurance card to your first appointment. For subsequent appointments, you will not need to furnish this for us.

Again, thank-you for choosing us as your dental health care provider, we look forward to meeting you.

Sincerely,

A handwritten signature in black ink, appearing to read "David R. Johnson, DDS", with a stylized flourish at the end.
